GOVERNMENT DEGREE COLLEGE BISHNAH

FROM THE PRINCIPAL'S DESK

It gives me immense pleasure to warmly welcome the prospective students who are going to become the future of our society and leaders of tomorrow. At the same time, I extend my best wishes to all those students, who are already part of this institution for their academic pursuit.

It was rightly said by Gandhi Ji, “**The future depends on what we do in the present**”. My dear friends, we all know that we are fighting a hard battle to keep ourselves fit to survive in this fiercely competitive world. Keeping all this in view, it has been and will remain a constant endeavour of our college to give our maximum and best to the students in terms of versatile knowledge and enlightenment so as to enable them to become very productive graduates for the job market, not only as Job seekers but Job creators also.

A good practical education is the foundation of a prosperous society. Education has to be modern, yet rooted in our culture and tradition. To prove our commitment, it will be our mission to create an environment of learning, where students feel free to transcend their knowledge from mere grasping of books to practical application in a more creative, innovative and scientific way, making use of the skills and resources of the local area for their own development as well as the development of the society.

We hold the responsibility to discipline the young minds with moral, social, spiritual and ethical values, which will help them to grow as a person with strong conviction to make decisions in different situations, having faith in themselves while facing the challenges of the modern world. This is what I believe constitutes the holistic development of the young students and is the real aim of education.

To translate the vision of the college in actual practice, we have a brilliant galaxy of the faculty members, who have rich experience of teaching and knowledge to share and

perform their role with best teaching practices. Moreover, we have a well-equipped library with the facility of inflibnet, wherein students have free access to take the advantage of different types of books, Journals, magazines, newspapers to help them shape their thoughts to participate in debates, symposium, discussions and competitive examinations at the national and international level.

The uniqueness of our college consists in the adaptation of educational system based on clear recognition of the needs and dominant interest of the students who are coming from the rural background. It will be our supreme purpose to take care of proper mentoring of students to make them confident and widely acceptable assets to prove their effectiveness as worthy citizens of the nation and the world.

I would like to sum up with the quote of Swami Vivekananda, “No one is ever really taught by another, each of us has to teach himself. The external teachers offer only the suggestion, which arouses the internal teacher, who helps us to understand things.”

This is the real spirit of learning process and with this positivity; I wish good luck to all the new arrivals for their future dreams to come true.
